Mike Maladzhikyan, Laboratory Director

This method has been validated for sample weights of 0.020g or greater. Results for samples with a weight of less than 0.020g fall outside of the scope of accreditations.

Sample results denoted with a "less than" (<) sign contain less than 20ug total lead, based on a 40ml sample volume.

Samples were analyzed by EHS AIHA Lab ID 100420. This report only applies to the sample(s) delivered to us and may not represent the entire material from which the sample(s) was taken. The condition of the samples analyzed was acceptable upon receipt per laboratory protocol unless otherwise noted on this report. Supporting laboratory documentation is available upon request.
